Shades of Green is an award-winning landscape architecture studio with a reputation for creating contemporary and thought-provoking spaces that make a positive contribution to the environment. We provide modern sustainable landscape and garden design services for residential and commercial projects in the San Francisco Bay Area and the surrounding region.

ABOVE: The pool garden is located near the neighbors' vineyard where a purple accent wall was designed to screen for privacy and sound. The native lawn fades into the natural grasses and colorful drought-tolerant plants accent the wall.

LEFT: The concrete fire pit and drought tolerant plants make the perfect backdrop for outdoor entertaining with views to the surrounding hills.
